

Standard Surgical Packs and Accessories

 DeRoyal®
Improving Care. Improving Business.®

QUALITY

From the employees that we hire to the products we deliver, DeRoyal understands quality is a primary focus in the healthcare industry. DeRoyal wants you to be as happy with your products and services as we are to have you as our customer.

COST CONTROL

Standardization promotes operational efficiencies that DeRoyal believes should be passed on to the customer. Our cost-effective production and sterilization of our standard packs allows us to deliver the same quality products while receiving the financial benefits of a standardized product

PACK EFFICIENCY

Understanding the customer needs is essential to delivering quality products and services. DeRoyal utilizes customer feedback and marketing data to ensure a standard product offering that meets the needs of our customers and reduces waste within our packs as often as possible.

SAFETY

Our components are not made with natural rubber latex. Many of our packs include our standard components from our surgical safety and accessories product line. These components were engineered with a wealth of knowledge of the medical industry that DeRoyal has accrued since entering the market in 1983. We have utilized this extensive experience to identify and mitigate as many surgical accidents as possible and are confident in our design of each safety product.

Standard Procedure Packs

Beginning operations in 1983, DeRoyal is the most tenured and experienced custom pack manufacturer in the industry. Our approach to the unitized market focuses on tailoring a solution to the customer's specific need.

For additional convenience and savings, DeRoyal's standard tray offering provides a variety of efficient options. These standard trays were developed with the input of experienced nurse practitioners and include the most common components.

DeRoyal has years of experience in managing demand for everything from needles to implants, and because of this vast experience, we can ensure your standard pack will be on-hand and available when needed.

- Standard Procedure Packs are stock items which are ready for shipment when ordered
- Procedure specific key sheets are included in each set
- Each set has the same high quality standards as DeRoyal® custom trays
- All have been logically developed for ambulatory and outpatient surgery needs
- Each set configuration is nurse-reviewed for clinical accuracy
- Standard Packs are not made with natural rubber latex

Basin Sets

DeRoyal knows that real convenience means packing savings along with products. Our Basin Sets are ready for all procedures

We offer basic unitized options in our DeRoyal Basin Sets that provide a significant portion of procedure supplies in small bundles. All provide low-cost bundled solutions to reduce the inconvenience and cost of pulling products, so you can stand ready for all procedures. DeRoyal Basin Sets are available in standard or custom configurations.

- Standard Convenience Kits contain stock items and are ready for shipment when ordered
- As with all DeRoyal's assemblies, all kits are customizable
- All Convenience Kits are not made with natural rubber latex

Wound Care Kits

Laceration Trays, Suture Removal, I.V. Start & Dressing Kits

- Nine Laceration Trays, with components for local anesthesia and quality instruments for suturing
- Suture Removal Kits in four configurations
- Three types of I.V. Start Kits
- Six all-inclusive Dressing Kits for wound care, TNP/CVC, dressing changes, sharp debridement, blood draws, and dialysis

Whatever your department, specialty or facility, make your job easier as you reach for convenience—the kind found in DeRoyal’s complete line of Wound Care Kits. Designed for efficiency as well as cost effectiveness, DeRoyal’s Wound Care Kits arrive pre-assembled, sterile and ready to use. We have Laceration Trays, Suture Removal Kits and I.V. Start Kits. Plus, DeRoyal is glad to customize any of these standard kits to contain only the items you specify. With so many choices, patient care just got easier.

SurgiMate® Accessory Kits

DeRoyal® Surgical Accessories span most of the basic components used in traditional open procedures. Our Accessory Kits are designed to provide convenience for those procedures that do not require more complete product utilization – your basic supply needs all in one unitized package.

- Consist of components used in most traditional open surgical procedures
- Available in two configurations
- Provide a basic level of unitization
- Reduces packaging waste
- Enables easy reordering
- Not made with natural rubber latex

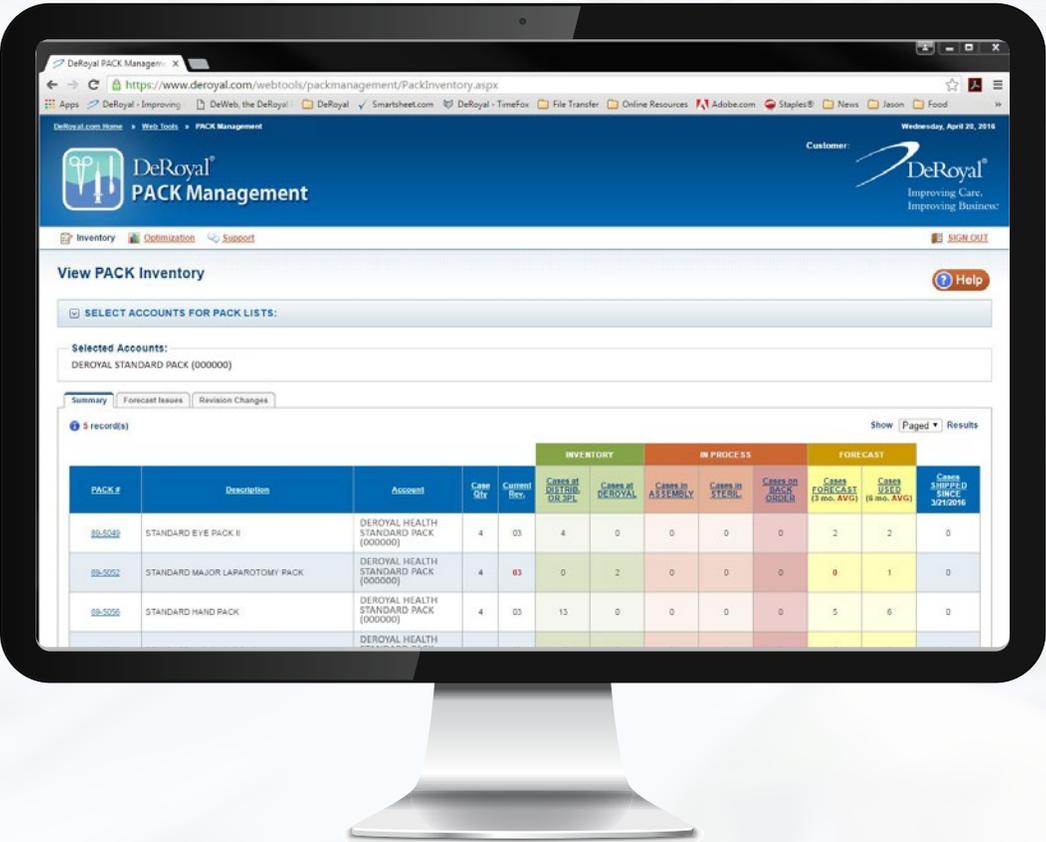

SurgiMate® Accessory Kit Content

- 2 Light Handles, Flexible or Rigid
- 1 Cautery Tip Cleaner
- 1 Skin Marker
- 1 Flexible Ruler
- 1 Suture Bag
- Choice of Needle Counter

RELIABILITY & PREDICATIBILITY

DeRoyal's standard product operations allow for simple and efficient product management. DeRoyal provides PACK Management, which is a free, web-based tool created to support a hospital's information needs to maintain a custom procedure tray program. This easy-to-use site provides you all the information related to your tray inventory, quoting, and standardization options, giving you the tools for the proactive management of a crucial segment of your hospital's operations.
