

## Warrior Knee Brace

Single Patient Use Only

Rx Only

### IMPORTANT INFORMATION

Please read carefully and completely before applying.

### INTENDED USE

This product is designed to help prevent hyperextension and anterior Tibial translation for ligament instabilities. It also provides medial/lateral support to the knee during activity. This brace may be used post-surgery or throughout post-op rehabilitation.

### INDICATIONS

Moderate to severe MCL, LCL, PCL and ACL and combined ligament instabilities.

### CONTRAINDICATION

Patients with poor peripheral circulation, diabetes or decreased skin sensitivity should not use this product.

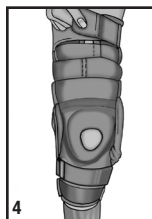

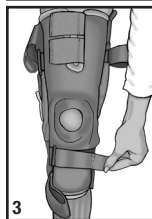

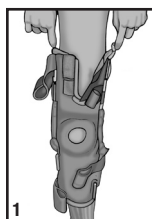

### PRECAUTIONS

- This knee brace is designed to protect and reduce the risk of injury only. It is not intended to prevent or eliminate knee injuries.
- Consult your medical professional immediately if you experience sensation changes, unusual reactions, swelling or prolonged pain while using this product.
- Extension stop adjustments to the hinge should be made only by, or under the advice of your physician.
- Use only as directed by your medical professional.

### DIRECTIONS FOR USE

#### Style: Pull-Up

1. Open all hook-and-loop closures.
2. Apply the knee brace by pulling it up over knee. Center the patella in the hole and align the hinge axis with the knee.
3. Secure all hook and loop closure straps beginning immediately below and above the knee joint and secure remaining straps.
4. Adjust for a snug, comfortable fit.

#### For Patella Control

1. Complete steps 1-3 above.
2. Buttresses are located within the patella opening of the knee brace. Remove buttresses from inside of brace and attach in desired position.
3. Adjust brace for a snug, yet comfortable fit.

#### Style: Wrap-Around

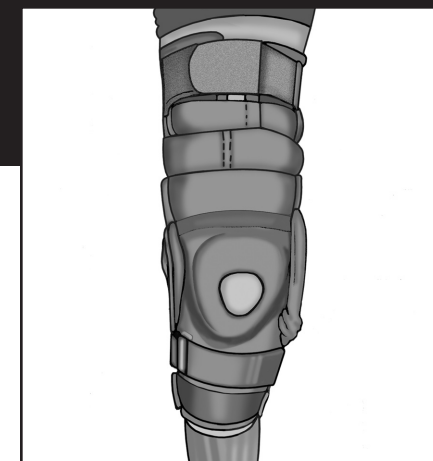

1. Open all hook-and-loop closures.
2. Apply the brace by wrapping it around the leg. Center the patella in the hole and align the hinge axis with the knee.

#### Style: Wrap-Around

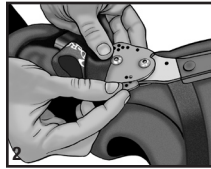

1. Open all hook-and-loop closures.
2. Apply the brace by wrapping it around the leg. Center the patella in the hole and align the hinge axis with the knee.

- Secure all hook and loop closure straps beginning immediately below and above the knee joint and secure remaining straps.
- Adjust for a snug, comfortable fit.

**For Extension Stop Adjustments**

- To change the extension stops, flip open the hinge cover and remove two small screws with Allen wrench stored in the hinge cover.
- Choose desired degree of extension stop stored in hinge cover and install. **Note:** Product comes with 0 degree extension stop installed.
- Tighten two small screws with Allen wrench. **Note:** Do not overtighten.

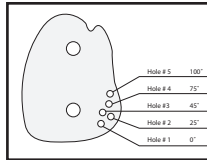

- Black = 0 degree
- Blue = 5 degrees
- Red = 10 degrees
- Green = 15 degrees

- Snap the hinge cover shut to close.

**For Flexion Stop Adjustments**

- To change flexion stops, flip open the hinge cover.
- The flexion pins are stored in the hinge cover. Remove flexion stop pin from cover and install. See diagram for proper degree placement.
- Snap the hinge cover shut to close.

**CLEANING INSTRUCTIONS**

Hand wash with mild detergent in lukewarm water. Air dry.
